

A PAPERTARIAN'S SECOND-FAVORITE THING? AN AUDIENCE.

Retta may be a stand-up, but as a papertarian, any mic will do. Because part of living a paper-based lifestyle is encouraging others to join the movement. So why should you? Paper comes from a renewable resource. And when you choose paper and products that come in paper-based packaging, you're helping to support the growth of America's forests. And by recycling, you're making the most of our natural resource.

GO PAPERTARIAN!
